

MOHAMMED ABDULSALAM MOHAMMED NAGI

Full Stack Developer

Taiz, Yemen | alsabry615@email.com | +967 730 467 534 | <https://github.com/Almndob>

PROFESSIONAL SUMMARY

Recent information Technology graduate and Full Stack Developer with hands-on experience designing and developing web applications using Laravel, PHP, JavaScript, and MySQL. Successfully delivered multiple academic, freelance, and graduation projects, including student management system, GIS-based application, and administrative portals. Passionate about building scalable, user-focused solutions and continuously expanding technical expertise within a collaborative development environment.

WORK EXPERIENCE

Featured Projects

March 2025 – May 2026

6Tech Student Services Platform

- Designed and developed a full-stack student services platform using Laravel.
- Implemented authentication, role-based access control, administrative dashboards, and service request management.
- Built a responsive user interface Tailwind CSS and Alpine.js.
- **Technologies:** Laravel, Tailwind CSS, Alpine.js, MySQL.
- **Live Demo:** <https://6tech-sa.com>

Hail Municipality Digital Portal

- Developed administrative dashboards for report classification and management.
- Built CRM-style interfaces to improve municipal data organization and workflow efficiency.
- **Technologies:** PHP 8, HTML5, Tailwind CSS, JavaScript, Alpine.js, MySQL.
- **GitHub:** <https://github.com/Almndob/hail-portal>

Sbul Platform Worshippers' Trips

- Developed mapping and route-tracking features using Leaflet Maps.
- Improved user experience through responsive interfaces and interactive map integration.
- **Technologies:** PHP 8, MySQL, Leaflet Maps.
- **GitHub:** https://github.com/Almndob/sbul_transport_system

Hail Neighborhood Quality Index System

- Designed and implemented a GIS web application using interactive maps.
- Enabled neighborhood quality assessment to support data-driven decision-making.
- **Technologies:** PHP, Bootstrap, Leaflet.js, MySQL.
- **GitHub:** <https://github.com/Almndob/hail-quality-index>

EDUCATION

Bachelor of Information Technology

Taiz University | Graduated: 2026

TECHNICAL SKILLS

- **Programming Languages:** PHP, JavaScript, C#, Java, C++.
- **Frontend:** HTML5, CSS3, Tailwind CSS, Responsive Design.
- **Frameworks & Libraries:** Laravel, React.js (Basic), Alpine.js, Bootstrap, Leaflet.js.
- **Databases:** MySQL, SQLite, SQL, Relational Database Design.
- **Tools:** Git, GitHub, AI Tools, Networking.

CERTIFICATIONS

- Computer Maintenance Course – Taiz University | January 2022

LANGUAGE

- **Arabic:** Native.
- **English:** Professional Working Proficiency.
